

# WeeklyReport\_2018-01-14\_01-20\_E

---

## Week Overview

- this month will be very hard for me (preparing for the final work)
- workTime:  $8 + 8 + 8 + 8 + 9 + 5 + 5 = 51$  hours

## Project: RSATree

- Numerical calculations have been added to inndim to support calculations such as averages.
- Tested several new types in the flight dataset

## Project: Dimension Reduction

- Mainly Liang Jun is doing the test, now only bhtsne's knn test is left.
- the experiment maybe can't b, I may have to move the computer to the boss next week.

## VR Course

- has the final exam in Thursday
- Completed the final project of this course

## Machine Learning Course

- I saw half of the first chapter of machine learning, and there are 10 chapters of ppt next

week. It is estimated that I can't finish it....

## Daily affairs

- read the abstract of the paper recommended by Mei

Joint Summarization of Large-scale Collections of Web Images and Videos for Storyline Reconstruction

## Short-term perspective

Work	deadline	Tip
Prepare for the exam of ML	Thu	Remember to prepare the cheat sheet
Dimensionality Reduction	Thu	knn test in bhtsne

## Long-term perspective

Work	deadline	Tip or Progress
RSATree Project	19.01.31	
Dimensionality Reduction	19.01.31	more test
GraphLayout	None...	understand the visualization part
